

Keynote Speaker

# 21st Century Evangelism Event

unlike anything you've imagined... powerful, prophetic, passionate and practical. Nationally-known leaders and local resources.

## Steve Hayner:

**"Churches that are growing see the primary purpose of the church as joining God's mission in the world.**

In the old way of *doing* church, what church leaders wanted was for the institution to grow — for more people to do 'church work,' for the budget to be balanced — so that they looked successful. In this new way of *being* church, leadership is helping everyone to turn their faces toward the world and to join Jesus in a lifestyle of witness, reconciliation, compassion, and justice."

Steve, the new President of Columbia Seminary, was elected unanimously after a nationwide search. He has a long history of experience in ministry to the church and to students. In 2003, he became the seminary's Peachtree Professor of Evangelism & Church Growth. Prior to that, he had served as President of InterVarsity Christian Fellowship (a non-denominational college discipleship ministry) for 15 years. After being ordained as a PCUSA pastor, he was the 'University Pastor' at Seattle's University Presbyterian Church for 11 years. In 2001, he was in parish ministry in two multi-ethnic Madison WI congregations. He is on the boards of World Vision, the Intl Justice Mission, Christian Intl Scholarship Foundation, and the Presbyterian Global Fellowship. Steve's wife, Sharol, is the Associate Pastor for Discipleship at Peachtree PC, Atlanta.

$e = (mc)^2$  is presented by a coalition of evangelical pastors and laypeople from the Miami Valley & Cincinnati Presbyteries and the Tri-State area.
